TODAY'S MEETING

The last full Kart race meeting held on the circuit was in 1966, also organised by the Rochester Motor Club. At that time a special award was offered for any driver able to lap the 1.24 mile circuit at an average speed of 60 mph. The development of the engines and karts can be readily appreciated when we have recorded this year average speeds of almost 80 mph.

The entry today represents a very good cross section of drivers, many of whom are here for the first time but some with a good knowledge of the circuit gained from recent kart races incorporated in car meetings. Given fair weather we will no doubt witness some very fast times and, without doubt, we shall see some highly competitive and exciting racing.
