## THESE BENEFITS

### DRIVE ON A RACE TRACK

When you join a circuit car club you will be sent three tickets each entitling you to 20 laps driving your own silenced road car round the Brands Hatch, Snetterton and Mallory Park race tracks. All three circuits are open for this purpose on Tuesday and Thursday evenings each week during the summer, and on certain weekend days throughout the year. Each track is properly supervised and now has permanent catering services. Members are covered automatically by legal liability insurance and low-cost personal accident insurance is available as an optional extra.

### ENJOY A CIRCUIT

Close to the paddock at Brands Hatch and Snetterton, and to the hairpin at Mallory Park, members have their own modern-style motoring pubs and clubhouse. They are open every Tuesday and Thursday evenings, at week-ends, and on all practice and race days. Apart from their attractive

### CLUBHOUSE

bars, set against a background of motor badges and paintings, the clubhouses are also equipped with music and amusements. The clubhouses are also the scene of members' film shows, dances and cocktail parties in honour of racing drivers and other motoring personalities.

### JOIN TODAY

#### Display a proud emblem

Each circuit car club has its own distinctive emblem which is reproduced on transfers, car and lapel badges, and on club ties.

#### Subscription Rates

For 3 gns. a year (2 gns. if a B.R.S.C.C. member) you can enjoy all the advantages described in this leaflet. (Track membership). For 2 gns. a year you can enjoy all the advantages described in this leaflet, except drive on the tracks and skid roads. (Social membership).

### DRIVE ON A SKID ROAD

You also receive three more tickets, each entitling you to a weekend practice session on the Brands Hatch skid road, built specially for the High Performance Course of the British School of Motoring. In your own car you can spin safely on the special mastic surface through 360 degrees from only 20 m.p.h.

### MEMBER OF ONE-

Membership of any one circuit car club allows you and up to two guests to use the clubhouses at Mallory Park, Snetterton and Brands Hatch. Similarly, members of any one circuit car club are also auto-

### MEMBER OF THREE

matically members of the other two, and are entitled to exchange skid-road and race-track tickets (when applicable), to use the other facilities at concession rates, and to enjoy full clubhouse privileges.

road-tests and motoring personalities—all in pictures. "Sportscar" is edited by John Blunsden and Darryl Reach, part of the team that produces its lively companion journal "Motor Racing".

### CHEAPER SPECTATING

You can also purchase, at a guinea less than the public rates, low-cost car race spectator season brochures for yourself, one other male, and up to four ladies and children, at one or all of the three circuits involved. These admit your car to any public park and all brooch holders to the paddock and any normal viewing area. At Mallory Park and Snetterton the brooches cost 3 gns. for males and 2 gns. for ladies and children for over £9 normal value.

### DRIVE IN A

The B.R.S.C.C. now organises exclusively for members of circuit car clubs, sprint meetings at Brands Hatch, Mallory Park and Snetterton. Race meetings as such

It's not a mistake. The Tiger does toddle at 20 miles an hour in top gear. Happily and effortlessly. But ready always to surge forward at your command without even a gear change. That's what's different about the Tiger. It's got everything you expect in a sports car, with something you seldom get — docility. For all the 164 bhp developed by its V8 engine and 0 to 60 in 9.2 seconds, any housewife can take it shopping!

# top rally drivers have proved that Dunlop radials take first place

**-they must be your choice, too!**

➤ International rally teams have proved the supremacy of Dunlop radial-ply construction. These are the radials they prefer—the ones they win on.

➤ Dunlop make a range of radials covering every motoring need: SP41, the modern all-purpose radial which no experienced driver should be without; SP41HR, for high-performance cars capable of 125 mph and over; SP44, for a new standard of safety in the worst of winter weather. And SP3 for those who prefer a particularly rugged radial for rallying.
